Hitachi Data Systems - Digital Transformation within existing Big Data Environments

Tuesday, August 30, 2016 10:40 AM (40 minutes)

Hardware and beyond

In a world where new hypes and trends flooding the CIO's on a daily base it's hard to keep up with innovations and staying on a tight budget.

Extract / Transfer and Load has been seen as the solution for years. We show a way starting different and solving existing issues without any vendor lock in.

Presenter: JÜRGEN, Krebs (Hitachi)

Session Classification: Plenary Talks
