

Session Program

Sep 21 - 23, 2016

HAP Workshop Topic 2 | The Non-Thermal Universe

Session 5

Thu, September 22

11:00 AM

Session 5: WP 2.2 Cosmic ray Composition & Interactions

Session | Location:

11:00 - 11:15

Large-scale Anisotropy of Ultra-high Energy Cosmic Rays: A Single Source in Turbulent Magnetic Fields

Speaker

Andrej Dundovic

11:15 - 11:30

Influence of the extragalactic background light and extragalactic magnetic field on the energy spectrum and mass composition of UHECR

Speaker

David Wittkowski

11:30 - 11:45

Magnetic lensing and correlations

Speaker

Marcus Wirtz

11:45 AM
