

Session Program

September 18, 2023 to October 6, 2023

KSETA Topical Courses September/October 2023

The BPHZ theorem: a decisive turn in the history of quantum field theory

Mon, October 2

9:00 AM

The BPHZ theorem: a decisive turn in the history of quantum field theory: Part I

10:30 AM

Session | **Location:** 30/23, 6/1, 6th floor | **Convener:** Sergey Volkov

10:45 AM

The BPHZ theorem: a decisive turn in the history of quantum field theory: Part II

12:15 PM

Session | **Location:** 30/23, 6/1, 6th floor | **Convener:** Sergey Volkov

Fri, October 6

9:00 AM

10:30 AM

The BPHZ theorem: a decisive turn in the history of quantum field theory: Part III

Session | **Location:** 30/23, 6/1, 6th floor | **Convener:** Sergey Volkov

10:45 AM

12:15 PM

The BPHZ theorem: a decisive turn in the history of quantum field theory: Part IV

Session | **Location:** 30/23, 6/1, 6th floor | **Convener:** Sergey Volkov
