

Session Program

Sep 18 - 21, 2018

Monitoring the non-thermal Universe 2018

Multi-Messenger

Cochem (Mosel), Germany
Kapuzinerkloster, Klosterberg 5, 56812 Cochem

Tue, September 18

2:15 PM

Multi-Messenger: Multi-Messenger 1

Session | **Location:** Cochem (Mosel), Germany, Kapuzinerkloster, Klosterberg 5, 56812 Cochem | **Convener:** Peter Veres

14:15 - 14:45

Monitoring and Multi-Messenger Astronomy with IceCube

Speaker

René Reimann

14:45 - 15:15

AMON Multimessenger Alerts: Past and Future

Speaker

Hugo Ayala

15:15 - 15:35

Multi-messenger astronomy in the era of the Zwicky Transient Facility

Speaker

Ludwig Rauch

3:35 PM

Wed, September 19

2:15 PM

Multi-Messenger: Multi-Messenger 2

Session | **Location:** Cochem (Mosel), Germany, Kapuzinerkloster, Klosterberg 5, 56812 Cochem | **Convener:** René Reimann

14:15 - 14:45

Deciphering the violent universe through gravitational waves

Speaker

Yoshinta Setyawati

14:45 - 15:05

Very-high-energy gamma-ray follow-up of gravitational waves with HAWC

Speaker

Israel Martinez-Castellanos

15:05 - 15:25

Fermi Gamma-ray Burst Monitor Observations of Gravitational Wave Counterparts

Speaker

Peter Veres

15:25 - 15:30

Information on the conference dinner

3:30 PM
