

## Session Program

Jun 8 - 11, 2026

# 11th International Workshop on Acoustic and Radio EeV Neutrino Detection Activities

## Calibration/Backgrounds

Schlosshotel Karlsruhe  
Bahnhofplatz 2, 76137 Karlsruhe, Germany

## Tue, June 9

11:30 AM

### Calibration/Backgrounds

**Session** | **Location:** Schlosshotel Karlsruhe, Bahnhofplatz 2, 76137 Karlsruhe, Germany

11:30 - 11:45 AM

#### Wind Related Background Radio Pulses at the Radio Neutrino Observatory in Greenland

**Speaker**

Pascal Schriefer

11:45 AM - 12:00 PM

#### The Triboelectric Effect at the Pierre Auger Observatory

**Speaker**

Julian Rautenberg

12:00 - 12:15 PM

#### Near-horizon transient backgrounds for radio experiments

**Speaker**

Anna Nelles

12:15 - 12:30 PM

#### Investigating Radio Frequency Interference from Satellite Constellations at the Radio Neutrino Observatory in Greenland.

**Speaker**

Annanay Jaitly

12:30 PM

1:30 PM

### Calibration/Backgrounds

**Session** | **Location:** Schlosshotel Karlsruhe, Bahnhofplatz 2, 76137 Karlsruhe, Germany

1:30 - 1:45 PM

#### Relative Calibration of the AugerPrime Radio Detector at the Pierre Auger Observatory

**Speaker**

Alex Reuzki

1:45 - 2:00 PM

#### A in-situ absolute gain calibration for the in-ice radio neutrino detector RNO-G

**Speaker**

Felix Schlüter

2:00 - 2:15 PM

#### HiCal3: Calibration of PUEO

**Speaker**

Kenny Couberly

2:15 - 2:30 PM

#### Precision Measurements of the Firn Refractive Index for RNO-G

**Speaker**

Nils Heyer

2:30 - 2:45 PM

#### Seasonal ice evolution: implications for UHEN detection and reconstruction

2:45 PM

**Speaker**

Dr Alexander Kyriacou
