

## **Session Program**

**Oct 5 - 7, 2020**

# **Precipitation and Flash Flood Prediction from Minutes to Days**

## **Towards seamless prediction**

Online

# Mon, October 5

9:00 AM

## Towards seamless prediction: Towards seamless prediction

**Session** | **Location:** Online | **Convener:** Roland Potthast

09:00 – 09:20 **Introduction**

**Speaker**

Roland Potthast

09:20 – 10:00

### The High-Resolution Rapid Refresh (HRRR) numerical weather prediction model

**Speaker**

David Turner

10:00 – 10:40

### SINFONY - the combination of Nowcasting and Numerical Weather Prediction on the convective scale at DWD

**Speaker**

Ulrich Blahak

10:40 – 11:00 **Coffee break**

11:00 – 11:40

### The research group on Near-Realtime Quantitative Precipitation Estimation and Prediction (RealPEP)

**Speaker**

Silke Trömel

11:40 – 12:10 **Moderated Discussion**

12:30 PM
