

Origin of giant electrostriction in Gd doped ceria revealed by differential QEXAFS

Monday, August 24, 2015 10:40 AM (20 minutes)

Author: Mr LI, Yuanyuan (Department of Physics, Yeshiva University, New York, New York, United States)

Presenter: Mr LI, Yuanyuan (Department of Physics, Yeshiva University, New York, New York, United States)

Session Classification: IV: Chemistry, catalysis, operando and time-resolved studies
